DETAILED ACTION

In response to applicant's arguments filed on Paper NO. 8, 08/18/00, the restriction requirement sent in an earlier Official Action on Paper NO. 7 is vacated and a new restriction requirement is issued

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 28-39, 43-44 and 47, drawn to a method of restoring p53 trans activation activity in a cell containing a mutated p53 protein, wherein the method comprises introducing into the cell a nucleic acid encoding a single chain antibody.

Group II, claim(s) 40-42 and 45, drawn to a mutated p53 protein and a method for modifying the conformation of the mutated p53 protein with a single chain antibody

Group III, claim(s) 28, 46, 48-53, drawn to a method of restoring p53 trans activation activity in a cell containing a mutated p53 protein by administering a single chain antibody.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of group-I is a method of gene therapy for restoring the p53 transactivation activity in a cell by administering a nucleic acid vector encoding a single chain antibody. The special technical feature of group-II is a mutated p53 protein. The special technical feature of group-III is a method of protein therapy for restoring p53 transactivation activity in a cell by administering a single chain antibody.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sumesh Kaushal whose telephone number is 703-305-6838. The examiner can normally be reached on Mon-Fri. from 8AM-4:30PM.
